Great Play Begins with Great Products

For over 25 years, Sport Systems Canada Inc. (SSC) has been proud to provide clients with rugged and affordable sports equipment. Customers include school boards, parks & recreation departments, municipalities and private companies. Products have been designed in conjunction with recreation and property maintenance professionals to address safety, durability and aesthetic concerns. Let SSC give your sports area years of maintenance free play!

In-Ground Basketball System

The Original "Canada Hoop"

4-1/2" O.D. galvanized steel standard

- 3 times thicker than retail posts
- 48" gooseneck extension offset allows for more spirited play under the goal
- 'Goal to Post' mounting design ensures all forces generated during slam dunking are absorbed by the post and not the backboard
- will not rust

54" x 35" x 1-1/2" cast aluminum fan-shaped backboard

- Unlike steel boards, this backboard will not rust or dent
- Unlike wood boards, this backboard will not rot or delaminate
- Superior strength & excellent playability
- Powder coat finish (white)

Institutional double goal with heavy nylon mesh

- Double the strength of conventional goals
- 5/8" & 1/2" steel rims with 1/2" diameter brace
- 5" x 5" mounting pattern
- Powder coat finish

Also available as:

BBIG-02 (with optional BUGG goal)

BBIG-03 (with optional playground grade Break-A-Way goal)

BBIG-01

SSC works with organizations by providing complete design & build services for new bleacher installations as well as refurbishments. Whether your organization requires a custom tailored seating solution, a standard product or assistance in replacing planks, we take care of all your seating needs.

Choose from an in-stock selection of 3 & 5-tier arrangements or take advantage of our expert advice when custom-designing a larger seating package unique to your facility. All bleachers are engineered & manufactured in accordance with OBC 1997, NBC (National Building Code), CAN/CSA-S.16.1-M94 and CWB (Canadian Welding Bureau) requirements. SSC is certified by the Canadian Welding Bureau.

Contact SSC for complete specifications when considering your next project.

Bleachers & Player's Benches

Permanent Soccer Goals

- Constructed of heavy gauge 4" steel tubing
- Rounded edges prevent player injury (abrasion)
- Three-piece design assembles on-site
- Rust inhibiting gloss white finish

Senior 8' H x 24' W (SIG-SR)

Junior 7' H x 21' W (SIG-JR)

Mini 6' H x 16' W (SIG-MN)

Also available:

Soccer Goal Netting

Portable Soccer Goals

A world class game demands world class products...

A world-class game demands world-class products. SSC's soccer line has been designed to stand up in the toughest environments. Robust tubular steel (permanent goals) and aluminum (portable goals) construction coupled with durable gloss finishes means your goals will look great year after year.

What kind of soccer goal system do you need?

- Unsupervised, dedicated soccer pitches typically require permanently installed steel systems
- Soccer pitches that are less prone to vandalism and pitches that require versatility typically require portable goal systems
- Consult with your league's governing body to determine which size of goal is right for your program.

BUGG

This innovative goal design requires no maintenance and its design reduces liability issues that result from player entrapment. For a truly robust basketball system, specify the BUGG on in-ground & wall mounted basketball units.

- 5/8" round cold-rolled steel rim
- 1" x 1/8" flat bar welded below rim for added strength
- 1-piece formed back plate & brace assembly
- Galvanized design means no rust or repainting

Big Ugly Galvanized Goal

Wall Mounted Basketball System

When space is an issue choose the wall mounted alternative to a free standing system.

- Galvanized steel wall mounted structure
- 18" extension from wall reduces the possibility of player collision and allows for great playability
- System features 54" x 35" x 1-1/2" aluminum fan-shaped backboard
- Includes assembly hardware, mounting hardware by others

Available as:

BBWM-01 with institutional double goal and heavy nylon mesh
BBWM-02 as seen with BUGG goal

Volleyball & Badminton Game

This versatile system can be used for both volleyball and badminton.

- Durable 2-3/8" O.D. galvanized & capped steel tubing standards
- 10'-6" length (8' height above playing surface)
- Sliding & locking collars to allow for infinite adjustment of net height for juniors', men's & women's play
- Heavy-duty 32' rope reinforced nylon net
- System is ideal for sand & grass play

GRSLV

Locking Collar

Also available with optional ground sleeve (GRSLV), which allows for easy removal of volleyball and tetherball standards.

- 2'-6" length
- Neoprene safety seal & debris trap

571-109

571-110

- Durable 2-3/8" O.D. galvanized & capped steel tubing standard
- Plated chain attached to eyebolt enables user to detach ball when system not in use
- Yellow nylon-wound tetherball with butyl bladder & recessed metal hitch

Also available with:
Optional ground sleeve (GRSLV)

Tetherball Game

Classic design & rugged construction will allow for years of high performance play.

- Gooseneck post constructed of 4-1/2" O.D. steel tubing featuring a 5' extension
- Cross-bar constructed of 4" O.D. tubing & uprights constructed of 2-3/8" tubing
- Uprights spaced at 18'-6" (extend 30' above field level)
- System assembles on-site
- Rust inhibiting gloss white finish

Also available:
Goal post padding (78-1)

Pitchfork Football Goal

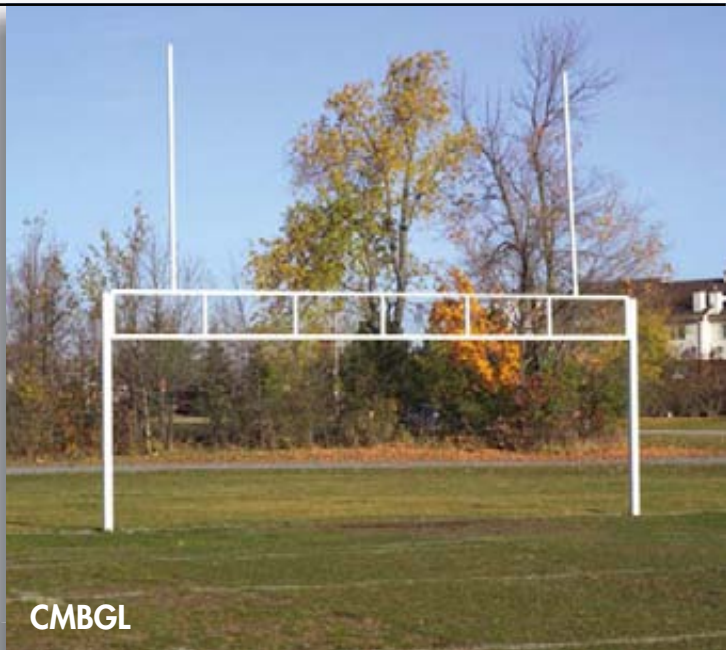

FTBGL

Combination Football/Soccer Goal

This unit allows you to use your field for both sports. Great for high schools and community sports fields!

- Soccer frame constructed of 4" x 4" square steel tubing
- Official soccer size (8' H x 24' W)
- Rounded edges prevent player injury (abrasion)
- Two-piece crossbar & uprights constructed with 2" tubing
- Uprights spaced at 23'-4" (extend 20' above field level)
- System assembles on-site
- Rust inhibiting gloss white finish
